---

Jeff, here are my FY14 accomplishments as requested. Highlights are two FYR completions, an ESD and an RD start.

Daniel R. Gravatt, PG  
US EPA Region 7 SUPR/MOKS  
11201 Renner Boulevard, Lenexa, KS 66219  
Phone (913) 551-7324

Principles and integrity are expensive, but they are among the very few things worth having.

---

**From:** Field, Jeff  
**Sent:** Wednesday, September 24, 2014 9:00 AM  
**To:** Dickerson, Shaneka L.; Drennen, Michele; Gifford, Kimberly; Gravatt, Dan; Helton, John; Houston, Pamela; Howell, Tonya; Jefferson, Matthew; Safadi, Amer; Sperry, Clint; Tran, Hoai  
**Subject:** No staff meeting

However,

I do need everyone to start thinking about compiling their end of year accomplishments for upcoming performance evals, which everyone should be advised that invites will be going out soon.

For RPMS I will need, by the end of this week, project milestones/accomplishments. I know!

Thanks

## **Dan Gravatt's FY2014 Accomplishments**

### **General:**

- Worked with Michelle Quick and Mike Weilbacher to migrate my site data from CERCLIS to Primavera
- Maintained site-specific time charging percentage well above 30%
- Acted as branch chief as requested by management
- Renewed my COR certification for the next two-year cycle

### **Bee Cee Manufacturing:**

- Conducted the FYR inspection visit
- Completed the third Five-Year Review report

### **Chicago Heights / Missouri Metals site:**

- Approved the PRPs' Source and Plume SAP
- Oversaw part of the Phase 1 investigation fieldwork under the SAP
- Reviewed results from Phase 1 of the PRPs' sampling at the Missouri Metals facility
- Worked with ENSV to scope Phase 2 of the PRPs' sampling at Missouri Metals and in the Chicago Heights neighborhood
- Approved the PRPs' SAP addendum to implement the Phase 2 sampling

### **Missouri Electric Works:**

- Transferred the site back to the previous RPM, Pauletta France-Isetts for the first half of the FY
- Received the site back from Pauletta when she retired in April, as part of overall work reallocation in the Division
- Oversaw the site sampling and inspection visit in support of the FYR
- Completed the third Five-Year Review report
- Worked with Steve Sanders in CNSL to prepare the final draft of the OU2 RD/RA AOC and the first full draft of the OU-3 RI/FS order for transmittal to the PRPs and supported CNSL and DOJ in their reviews of the facts of the case
- Completed an Explanation of Significant Differences for OU-2 alluvial aquifer to select the contingent remedy of monitored natural attenuation
- Started the remedial design phase for OU-2 alluvial aquifer (special-account lead) with a Mini-START task order to complete the RD for MNA

### **West Lake Landfill:**

- Spoke at monthly Community Advisory Group meetings to respond to batches of questions submitted in advance by the CAG and answer questions from the attendees
- Held numerous calls and visits with HQ/NRRB personnel to discuss revisions to the PRPs' work plans for the six Supplemental SFS work plans
- Met with Virbac and Hussmann, two local businesses, at their request to answer their questions on the site and open channels for future communication
- Held numerous calls and briefings with the PRPs, the RA, USACE, ORD, congressionals, the Airport, and other stakeholders on potential locations and construction techniques for the Isolation Barrier
- Assisted CNSL in drafting a Pre-Construction Order to the PRPs for work to prepare for construction of the Isolation Barrier, and evaluated the PRPs' deliverables required under the Order
- Assisted in development of a QAPP for off-site air monitoring during future construction of the Isolation Barrier
- Reviewed and approved GCPT/Coring work plans to evaluate the potential Isolation Barrier area, and oversaw PRPs' field work
- Oversaw an interagency agreement with the US Geological Survey for hydrology and geochemistry support in interpreting the groundwater data, and held numerous calls and briefings with USGS to monitor progress towards completing their report

- Wrote and oversaw two interagency agreements with the US Army Corps of Engineers, one to support Isolation Barrier construction; the other to support reviews of the SSFS deliverables
- Assisted OPA in responding to interview requests from media and congressionals
- Drafted responses to innumerable CMS documents, lists of questions, and letters from MCE, the CAG and the public
- Processed and responded to dozens of FOIA requests on the site
- Provided regular briefings and hot issue papers to the DD and RA's office on site progress
- Assisted new project team members (Lynn Slugantz and Alyse Stoy) in understanding site status

#### **St. Louis FUSRAP Sites:**

- Acting as back-up RPM to Matt Jefferson for SLAPS, SLDS, Latty Avenue, and the vicinity properties
- Participated in regular project status conference calls
- Coordinated with Matt Jefferson on media and other issues which affected both SLAPS/SLDS and Westlake

#### **Regional Reduce, Reuse & Recycling (R3) Team:**

- Organized and led work teams to recycle batteries and Techno Trash on an as-needed basis, and reported weights to Chris Taylor to help calculate the Regional waste diversion rate
- Worked extensively with the team to set up new recycling protocols and educate staff about them

#### **Training:**

- Kansas Hydrology Seminar in Topeka, November
- ITRC Light Non-Aqueous Phase Liquid (LNAPL) Training in Kansas City, April
- Risk communication training with David Ropeik, December
